

DEMASE

TECHNICAL SERVICES

Experts in Cybersecurity, Technology, and Nuclear Engineering

CYBER SECURITY

- Cybersecurity Technical and compliance Services
- CMMC Readiness Services
- NIST SP 800-53, 800-82, 800-171, and Risk Assessments
- Incident Response
- Accreditation Readiness
- Critical Infrastructure Security of Industrial Control Systems, Distributed Control Systems, and Internet of Things

NEXT GENERATION TECHNOLOGIES

- Cloud Infrastructure Development
- Custom Application Development
- Artificial Intelligence
- Machine Learning
- Digital Transformation Services
- Data Analytics
- Virtual CISO Services
- Technology Research and Development

SAFEGUARDS & SECURITY

- Security Program Surveys and Assessments
- Information Security
- Personnel and Physical Security
- Security Risk and Vulnerability Assessments
- Security Training

DESIGN ENGINEERING

- Engineering Support Services
- Specialized Design Engineering
- Design Analysis and Calculations
- 3D CAD Package Development
- Fabrication/Construction Support
- Test Plan Development and Implementation

NUCLEAR SAFETY

- Documented Safety Analysis for DOE Nuclear Facilities
- Nuclear Criticality Safety Evaluations
- Nuclear Safety Program Development and Assessments
- Integrated Safety Analysis
- NRC License Planning and Development

NUCLEAR OPERATIONS

- Operations Procedures
- CONOPS Principles
- Training Program Development
- Readiness Assurance and Startup

- Women-Owned Small Business
- Q-Cleared, Expert Resources
- NOA-I Quality Assurance Program
- Certified CMMC Assessors
- Securing the Nation's Supply Chain
